SandP Announces March SP/ASX Rebalance

---

If ASX considers an announcement to be sensitive, trading will be halted for 10 minutes.

If your announcement is classified by ASX as sensitive, your company's securities will be placed into "pre-open" status on ASX's trading system. This means that trading in your company's securities is temporarily stopped, to allow the market time to assess the contents of your announcement. "Pre-open" is approximately 10 minutes for most announcements but can be 50 minutes (approximately) for takeover announcements.

Once "pre-open" period is completed, full trading of the company's securities recommences.

## Index Announcement

### Standard & Poor's Announces March Quarterly Rebalance of the S&P/ASX Indices

**Sydney, Mar. 4, 2011** – S&P Indices, the leading provider of equity indices in Australia, announced today that the following constituent additions and deletions will take place in the S&P/ASX indices, effective after the close of trading on March 18, 2011.

At the March quarterly review the entire S&P/ASX index suite is rebalanced, which includes the All Ordinaries Index. The quarterly rebalance considers the aggregate market capitalisation and liquidity of stocks for the preceding 6-months as a basis for eligibility.

The March quarterly review has resulted in limited turnover for the large cap indices of the S&P/ASX suite with the removal of Westfield Retail Trust from the S&P/ASX 20 the only change. Resources stocks featuring prominently as inclusions in the S&P/ASX 300 representing over 80% of the inclusions.

These changes will be made effective after the close of business on March 18, 2011.
